

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Preface.

THE Parish of Croston originally consisted of the townships of Croston, Chorley, Hoole, Rufford, Tarleton, Hesketh, Beconsall, Bispham, Bretherton, Mawdesley and Ulnes Walton. Hoole was separated from the Mother parish in 1641, but Chorley remained a dependent chapelry until 1793, although it had a very ancient church where the baptisms, marriages, and burials were duly recorded from, at all events, the year 1549. Rufford also was made into a parish in 1793. Tarleton and Hesketh-with-Beconsall were not constituted parishes until 1821. The Church of Croston is one of the oldest in Lancashire and dates back certainly to the twelfth century, and its Registers are amongst the very small number of those commencing in 1538, in compliance with the Royal Injunction published by the Vicar-General in that year.

In 1828 the Churchwardens allowed the earlier volumes of the registers to go out of their possession and they were consequently lost; last year, however, one of the missing volumes was discovered in the De Trafford Estate Office in Manchester. On hearing of this discovery I applied to Sir Humphrey De Trafford, who at once consented to my transcribing the Register with a view to its publication by this Society.

The volume contains Registers from 1538 to 1685, and except for a few years during the Civil Wars is almost complete. The Registers are written on parchment and in a good state of preservation. The binding has been carelessly executed, in many places the pages being stitched the wrong end up and the earliest part of the Register is in the middle of the volume, which contains 147 leaves, each 14 inches by 6½ inches.

The Transcripts at the Diocesan Registry Office have been consulted, and any important variations or additions are here noted.

As the Second Original Volume can not be traced, recourse has been had to the Episcopal Transcripts at Chester, and all such Transcripts as can be found there covering the years 1690-1727 both inclusive are here printed. These comprise all returns by Rufford and Tarleton Chapels for the same period. No Transcripts exist for the years 1685-1689 inclusive.

Sincere thanks are due to the Officials at the Diocesan Registry and especially to the ever courteous Mr. Price for their kind assistance, and the Society is once more under deep obligation to Miss Amy Wilson, of Wigan, for undertaking with such accuracy the task of preparation of so lengthy an Index, which will be found at the end
Part II.

Except in the following particulars the volume as now printed is an exact copy of the original:

- I. The dates are given on the right-hand side in Arabic numerals.
- II. "Sonne," "daughter" or "doughter" are generally given as son or dau., except where the equivalent is in Latin.
- III. The words "was baptized," "was buried," and "were married," are not repeated.
- IV. The first letter of christian and surnames is generally printed with a capital.

NOTE.—Just as this Volume was coming to a printed conclusion a Transcript for 1616 was discovered at Chester by Mr. Price. Fortunately the only differences between it and the text of this Volume are as follows:—

Page 52—The 32nd entry in 1616—"Margery" appears as "Margaret"
" 138 " 2nd " " "Margaret" struck through and
" " " " "Allice" written above it.
" " " 3rd " " "Rygbye" appears as "Rydlye"

*The Rufford Entries of Christenings for 1701 and 1702
which are here given were also discovered at
Chester long after the other Entries for the same
years had been printed off.*
